For Immediate Release
Friday, June 3, 2016
Lake Jackson, Texas

PRESS RELEASE

NOTICE TO THE GENERAL PUBLIC OF ROAD CLOSURE AT ASH LANE (A. P. BEUTEL ELEMENTARY)

ATTENTION: Residents, Police, Fire, EMS, School District, City Employees and others.

Brazosport Independent School District's contractor is planning on the closing of Ash Lane to tie the new A.P. Beutel campus drainage system to the existing storm drain pipes between 111 Ash Lane and 113 Ash Lane.

This temporary street closure is scheduled to begin Monday, June 6, 2016 and expected to be opened to traffic by Monday, June 20, 2016. This street closure is necessary to connect the improved storm pipe drainage system under the street rather than the current above pavement surface flow.

This fourteen day estimated time of completion is a worst case scenario, considering the rain condition being experience currently, but we will press for a faster turnaround.

There will be no thru traffic in the 100 block of Ash Lane during the construction process. However, the residents residing in house numbers 111 and lower will be able to access their homes from the Ligustrum Street end of Ash Lane, and the residents residing in house numbers 113 and greater will be able to access their homes from the Nasturtium Street end of the block.

For your safety and your neighbor's, please observe all construction zone regulations and signage as you travel in the work zone.

We appreciate your patience and apologize for any inconveniences these needed improvements changes may create for you.

Sincerely,

A handwritten signature in blue ink that reads "Sal Aguirre".

Sal Aguirre, P. E.
City Engineer
