

*Lake Jackson
Police Department*

2021 Annual Report

Message from the Chief

In January of 2019, I was honored to be named the 8th Chief of Police in the history of the Lake Jackson police department. Having been at the department for 24 years at the time, I certainly realized the great responsibility and dedication required to be Chief. Last year, I was posed with the question, “if the police building were to be named after someone, one of the Chiefs, which would I propose”? To answer this question, of course it was appropriate to consider each person’s contribution to the department, longevity, and the character of the person as it pertains to leadership. Having known five of the eight Chief’s personally, settling in on a single person for such an honor was a difficult decision, and showing respect for each is a given.

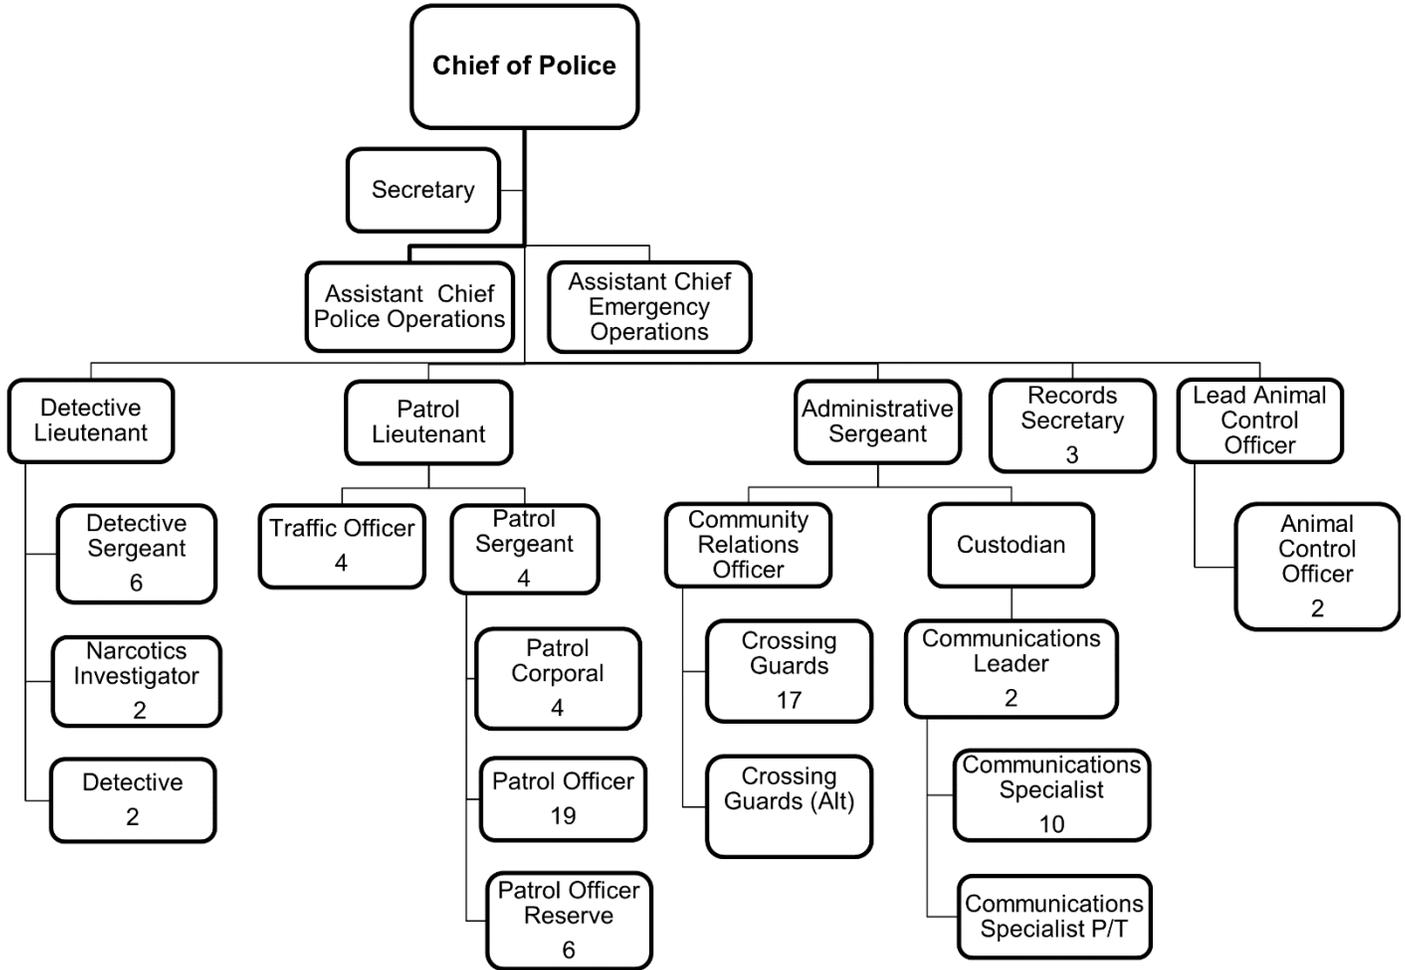

Cap Brown was a pioneer and one of the longest termed Chiefs. Chief Hinton, who was Chief for a relatively short period, was chosen as the Chief Deputy of Brazoria County for his leadership qualities. My good friend Rick Park, Sr. deserves a great deal of consideration for taking the reins in difficult times and really turned things around in 6 years at the helm. In the end, the man in the chair when I was hired in 1995, Chief Powell Clayton “PC” Miller, was selected by council on 12/06/2021, to have the police department building in his namesake.

Chief Miller embodied all of the good qualities I reflected on initially. After only three years of service as Chief myself, I can easily appreciate Chief Miller and Cap Brown for being the longest tenured police department heads. I often wonder if the age has past when someone can or will maintain such a position for as long as they did. Chief Miller served our country in the armed forces on two separate occasions and worked as a state trooper as well. He was an adoring husband and is a great family man. In the department, PC was the very first detective and was instrumental in bringing real change and improvement to the investigation division. His leadership as Chief was strong when setting expectations yet supportive of the officers and other employees under his charge. I remember the line of officers waiting to come to work at Lake Jackson under the leadership of PC Miller.

Simply stated, PC Miler is a man of great character who led this department into modern times, and it was a great honor working for him. PC Miller is very deserving of the recognition bestowed upon him by council. His name on our building will be a good measure of the kind of leadership desired to represent such a great department. The outstanding work done in 2021 by the members of the Lake Jackson Police Department is dedicated to Chief PC Miller.

Paul M. Kibodeaux

Lake Jackson Police Department

It is the mission of the Lake Jackson Police Department to positively impact the quality of life throughout the community by delivering professional and courteous services, preserving the peace, enforcing the law and Constitution, protecting property, and providing a safe environment for all citizens.

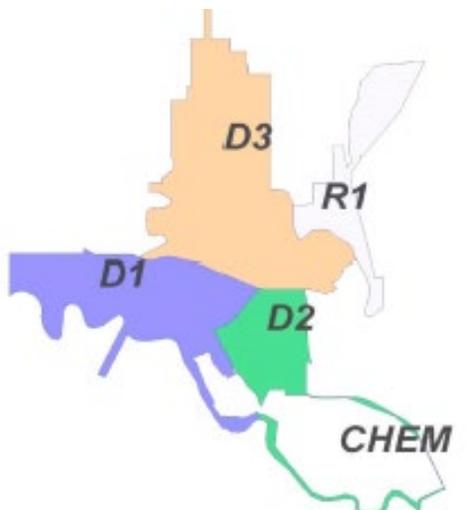

Field Operations

Patrol Division

The Lake Jackson Police Department Patrol Division consists of 1 Division Lieutenant, 4 Patrol Sergeants, 4 Patrol Corporals, 19 Patrol Officers, 4 Traffic Officers of which 3 are assigned to motorcycles and 1 is assigned to a patrol car, and 4 Reserve Officers. Over the past year, we have had 2 Reserve Officers resign as they approached retirement in their full-time jobs.

The duties and responsibilities of the Patrol Division are to respond to emergency and non-emergency calls, patrolling business districts and residential neighborhoods, enforcing traffic laws and community policing. The Patrol Division is divided into 4 shifts, with each shift consisting of 1 Patrol Sergeant, 1 Patrol Corporal, and 4 - 5 Officers. The Traffic Officers work separately from the shifts and are assigned to work primarily during the daylight hours during heavier traffic flow and respond to traffic complaints, traffic accidents, reckless driver calls, and other traffic related calls which are based on recent trends, construction, traffic flow, traffic violations, etc.

Each Patrol Vehicle is equipped with the latest modern equipment available to assist Officers in the performance of their duties and to allow them to spend more time on patrol. Some of the equipment to mention is radar-stationary/moving, Watchguard Video Cameras, advanced lighting and safety signals which includes low frequency rumblers, Opticom traffic control system which transmits a signal to approaching intersection traffic signals and directs the traffic signals to change allowing the intersection to clear for approaching emergency vehicles. In addition, there are in car laptop computers used for report writing, obtaining information from the department's mainframe computer, obtaining driver license and criminal history information for investigative purposes. Within the year 2021, we replaced the handheld radars for the officers on Motorcycles with new radars from the same manufacturer. Thanks to the Lake Jackson Police Association for the purchase of Stop Stick tire deflation devices that replaced the older tire deflation devices we had in service from roughly 2011. The Lake Jackson Police Association purchased 12 Stop Stick systems, 1 for each patrol unit.

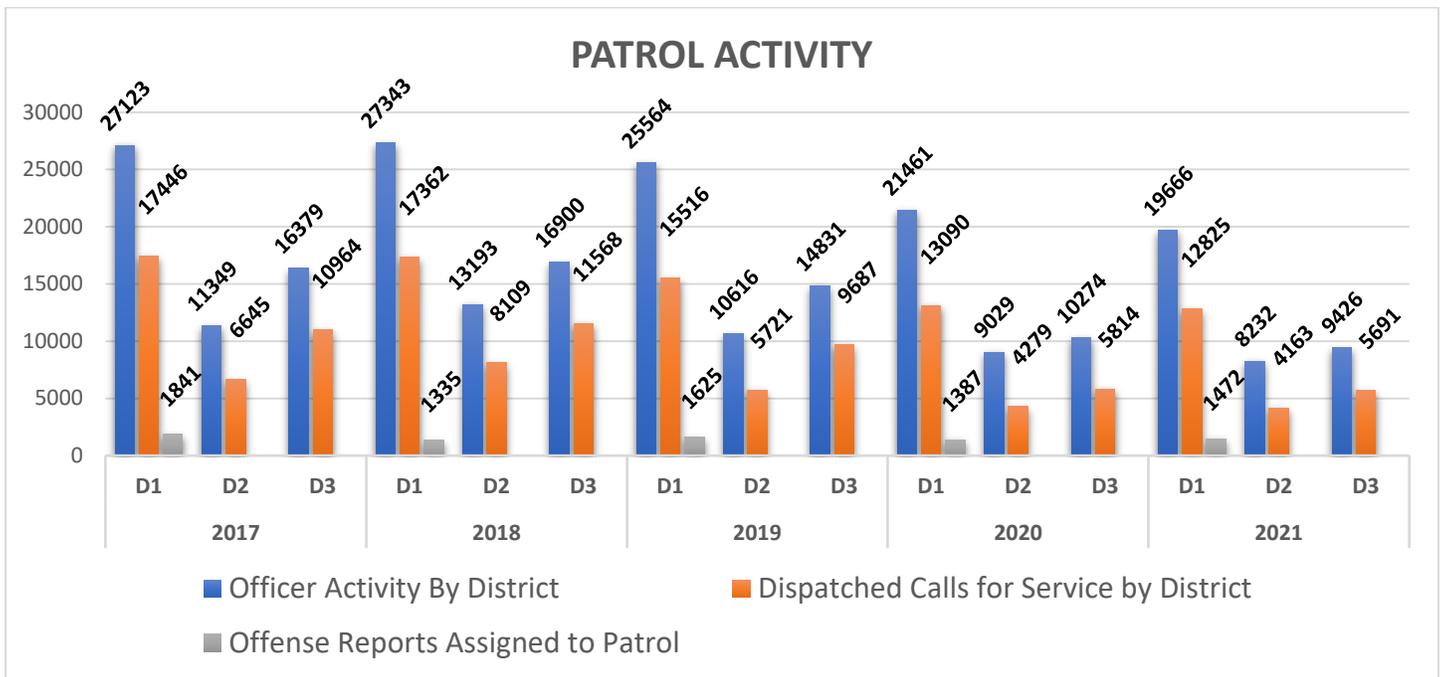

Field Operations

Patrol Division

The chart printed below shows a five-year comparison of data which includes all the patrol division's calls for service, including all self-initiated activities and the second bar is of dispatched calls for service only. The third bar is all offense reports generated and completed by Patrol Officers. This is broken down by districts which include District 1, District 2, District 3, and Other.

Other calls which are not included within the three districts are all other calls not included in one of the three districts and also includes some other agencies assist calls, warrant service calls, follow up investigations, and court duty.

The year 2021 began with a significant decrease in manpower as some of our staff resigned to accept employment with other agencies. This decrease included the loss of 2 Detective Sergeants, 1 Patrol Sergeant, 1 Patrol Corporal, and a Traffic Officer. This resulted in a ripple effect throughout the year by new officers filling patrol positions while more experienced qualified persons were promoted.

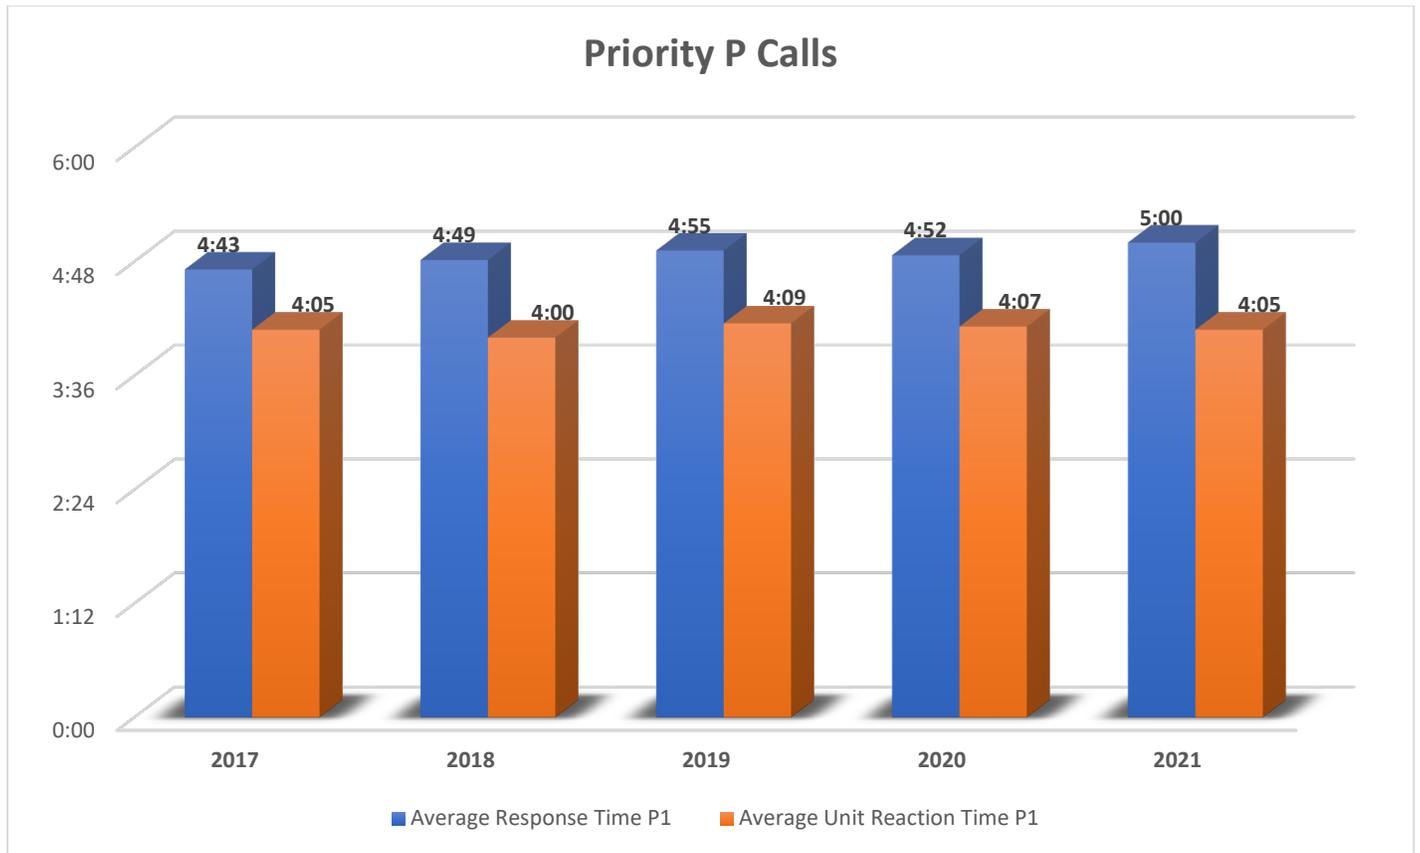

Patrol Division Unmanned Hours

When full, the Patrol Division works a total of 66,560 hours per year. The standard total hours worked per officer each year is 2080. In 2021, the Patrol Division had a total of 6989 hours that were unmanned due to personnel resigning, retiring, transferring to other divisions/departments and one Patrol Sergeant on military deployment to the U.S. southern border. Those hours equal to 10.5 percent of the total man hours or the equivalent of 3.36 patrol positions for the year.

Field Operations

Patrol Division

From the time priority “P” calls (highest priority requiring emergency response) were received, entered into the computer, dispatched and arrived, patrol officers had an average response time of 5.00 minutes. We had an average reaction time, (response time after the officer received the call) of 4.05 minutes. Reaction time is the actual response time police agencies use for response time statistics. A total of 635 priority “P” calls were answered.

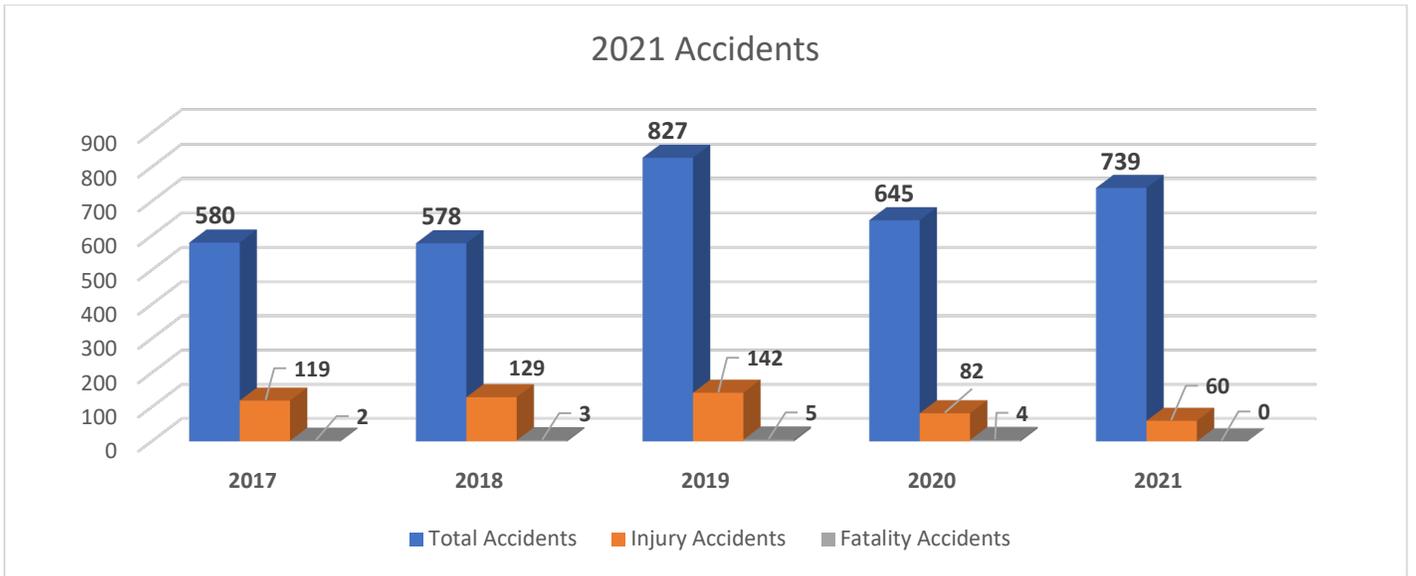

Security Checks

As a further service to our community, the police department offers residential security checks. Officers will check residences for a maximum of thirty days while the homeowner is away. In 2021, the police department received 119 requests for residential security checks and recorded 674 responses to these requests

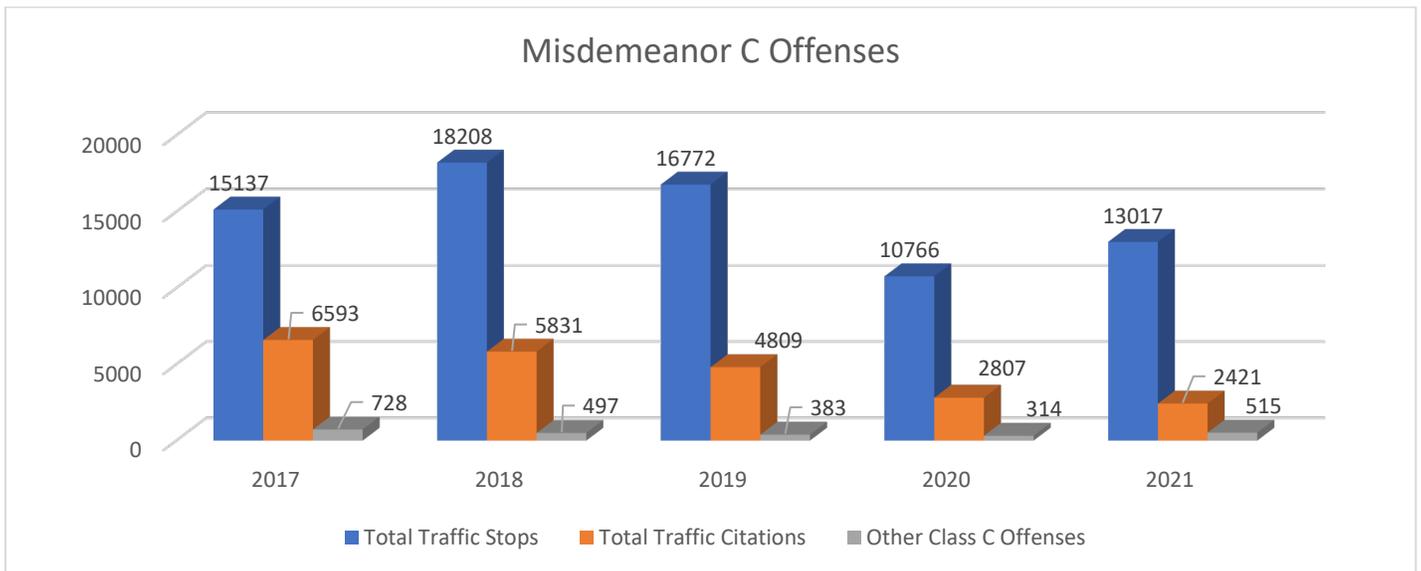

Field Operations

Patrol Division

Fatalities

- **NO FATALITIES IN 2021**

Misdemeanor C Offenses include total number of traffic stops, traffic citations filed through Municipal Court, and Other Class C offenses (Public Intoxication, Shoplifting, Disorderly Conduct, Possession of Narcotic Paraphernalia, City Ordinance Violations, etc.) also filed through Municipal Court.

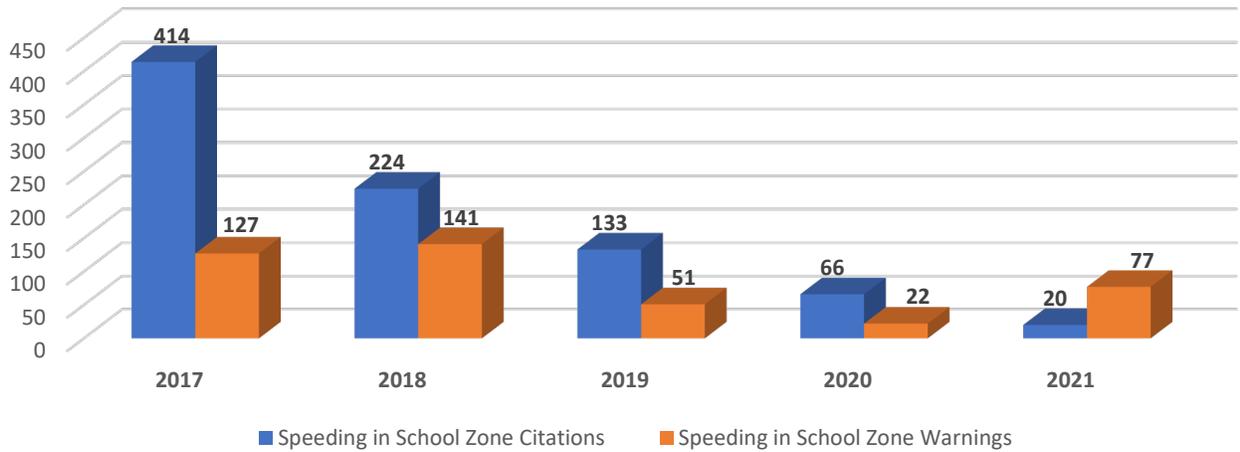

Field Operations

Patrol Division

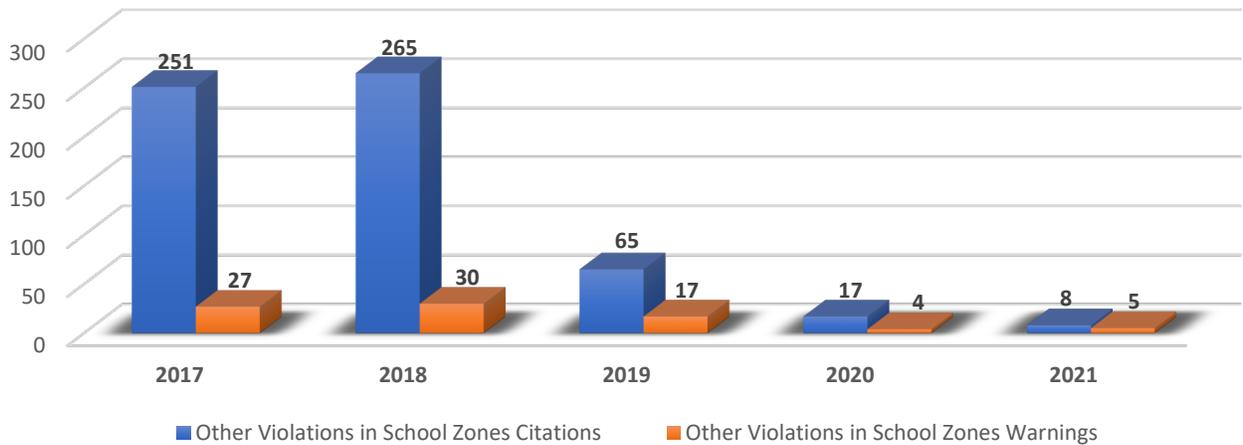

School Zone Violations

Schools are in session approximately 180 days per year. The graphs depict only violations which occurred during class hours.

Speeding in School Zone Violations

Other Violations in School Zones

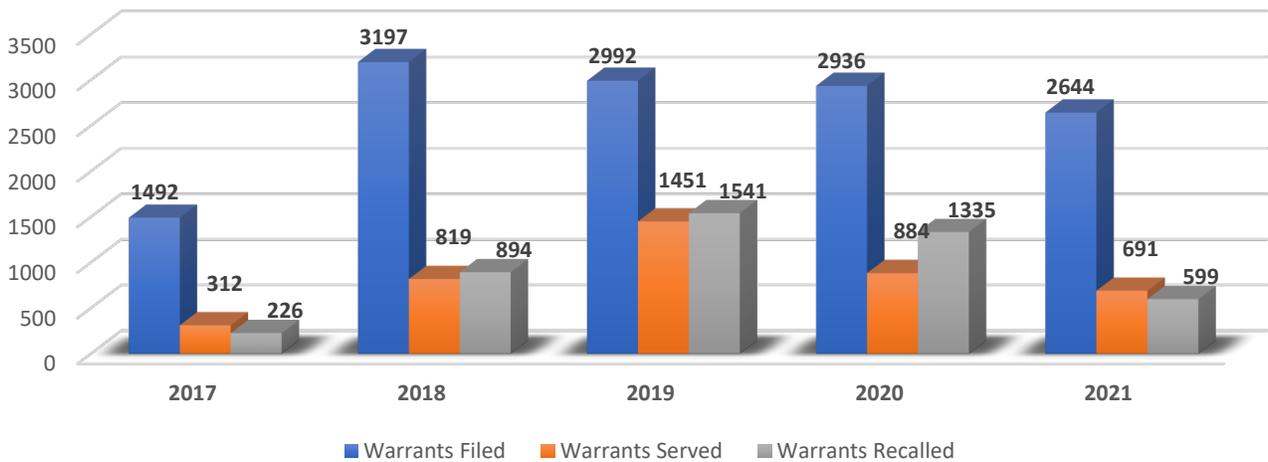

Field Operations

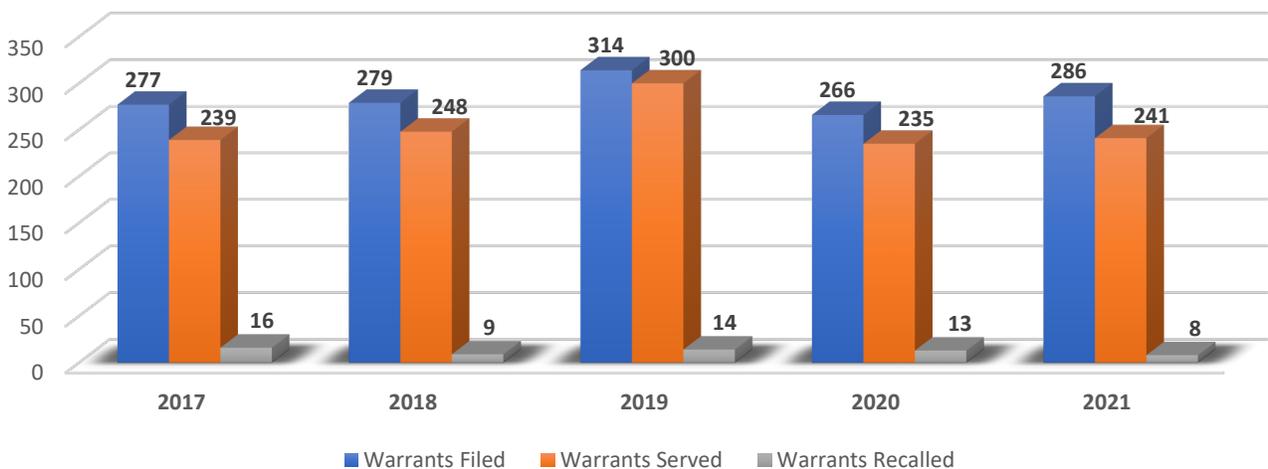

Patrol Division

The charts below represent our warrant activity for the previous five years. Warrants we manage are issued through our Municipal Court and Justice of the Peace Court. All officers are responsible for warrant execution, which encompasses locating and arresting the wanted person. Our Communications Specialist enter warrants from the courts into our computer database and maintain them in the dispatch office.

Municipal Court Warrants

Justice of the Peace Warrants

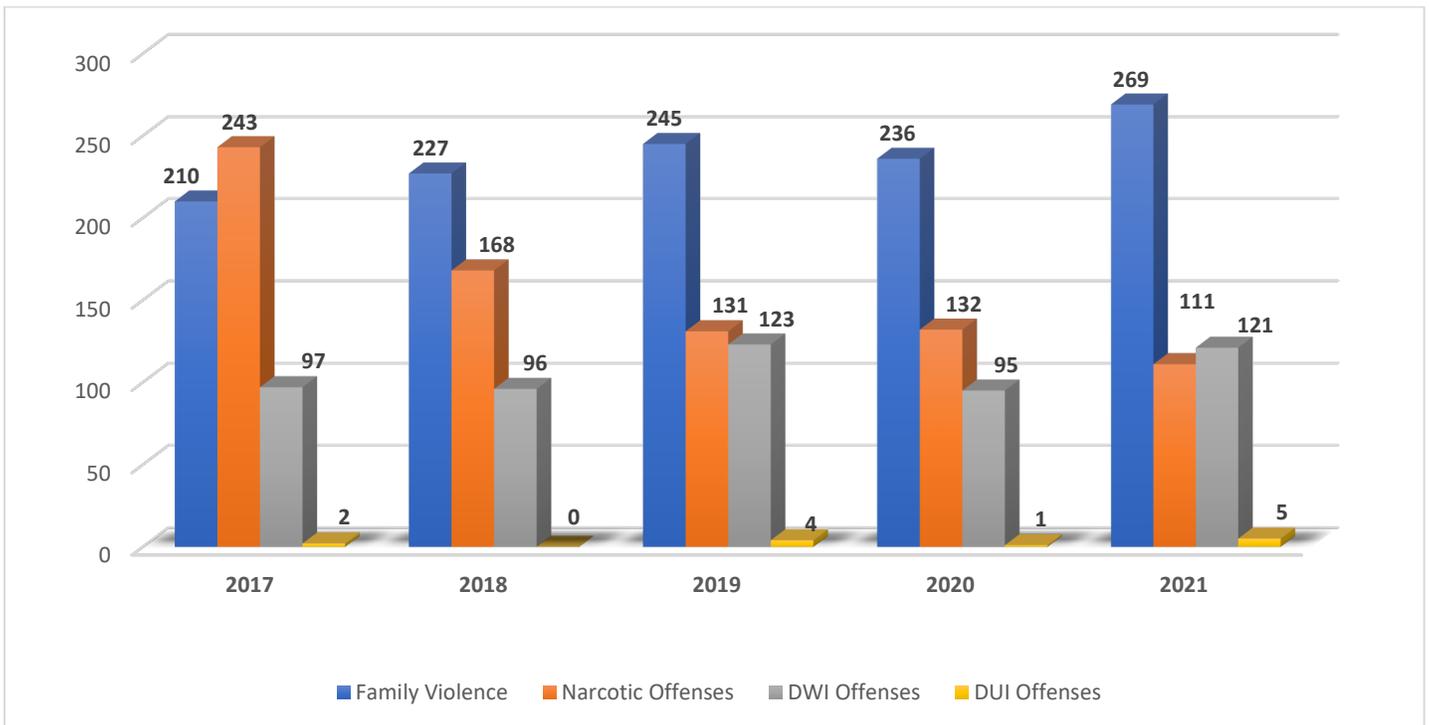

Field Operations

Patrol Division

Offenses involving Driving While Intoxicated, Intoxication Assault, Intoxication Manslaughter, and Driving Under the Influence are crimes committed by adults and juveniles who have consumed intoxicants and operate a motor vehicle. For juveniles, the violation is with any notable amount of alcoholic beverage on their breath which includes persons under the age of twenty-one. For adults twenty-one years of age and older, the blood alcohol level must be 0.08 or greater. Driving While intoxicated does not only involve alcohol. This offense also includes any other substances which may impair the driver's ability to operate a motor vehicle.

Family Violence is a continuing issue in our city. In 2020, the number of Family Violence offenses was 236. In 2021, the number of Family Violence offenses was 269, which is an increase by 12.27%. Family violence cases may go unreported as the victims are reluctant to report the crimes for fear of retaliation.

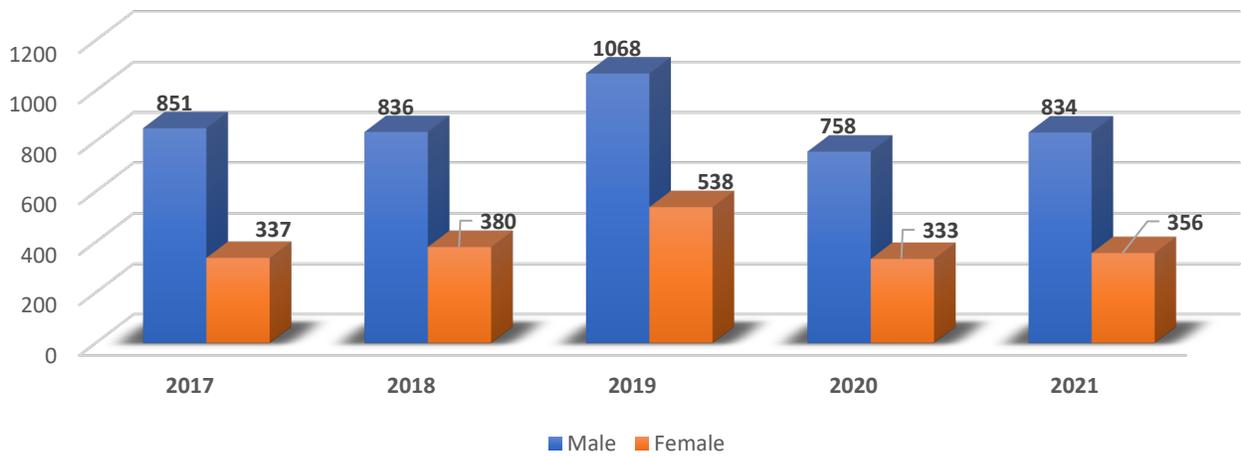

Field Operations

Jail/Holding Facility

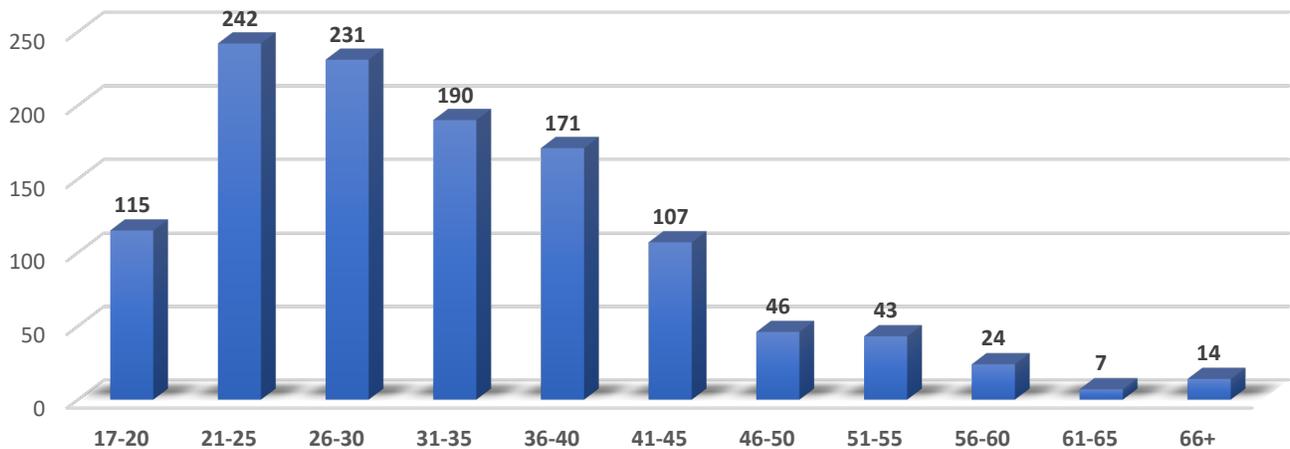

The Lake Jackson Police Department jail facility is operated under State guidelines as a temporary holding facility providing housing, care, and custody of individuals arrested. The facility has accommodations for up to 16 occupants and has 2 detoxification cells.

Persons in custody for only Class C offenses are detained for less than four days prior to posting bond, paying fines, or given credit time served. Individuals arrested for Class B or above offenses either post bond or are transferred to the Brazoria County Detention Center.

Adult Arrests by Gender

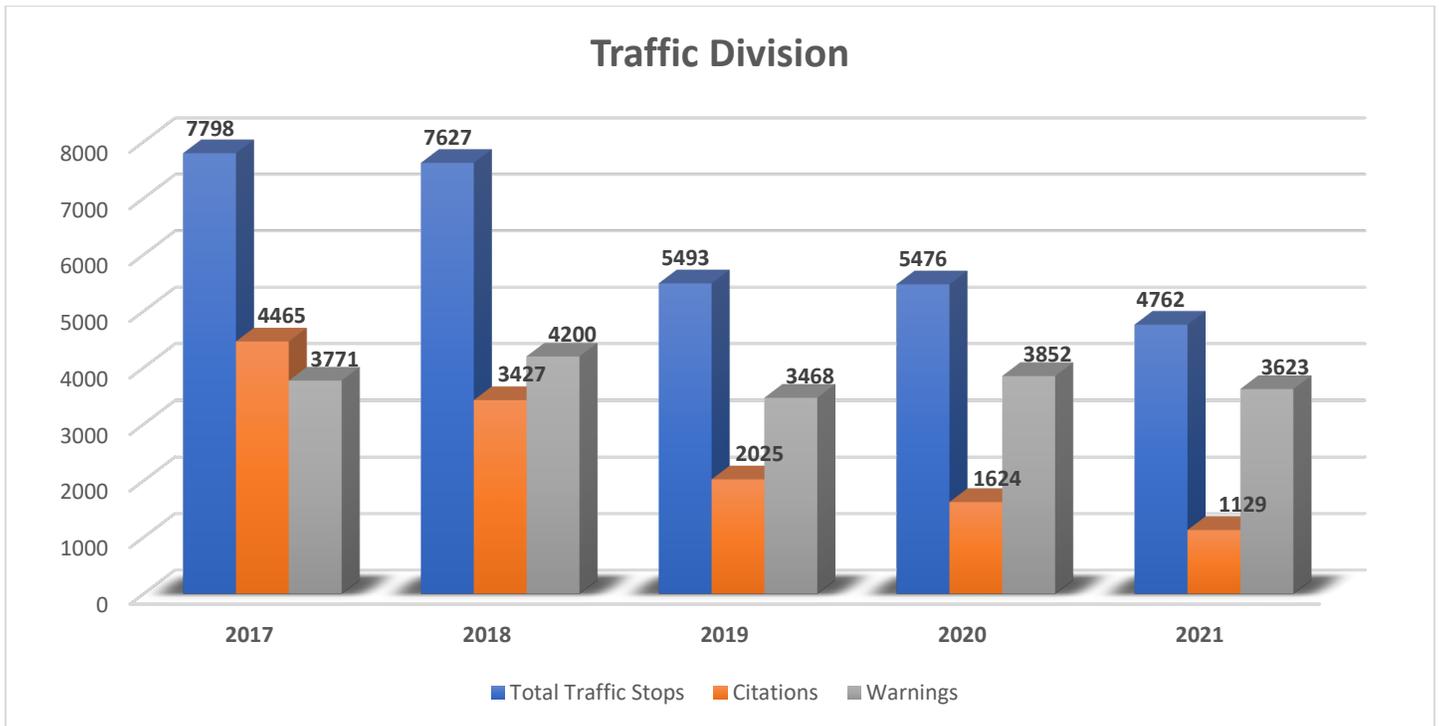

Adult Booking by Age

Field Operations

Traffic Unit

The Traffic Unit consists of four officers who are trained to use motorcycles and one officer assigned to a vehicle. All officers of the Traffic Unit have additional training for investigation of vehicle crashes. As mentioned earlier, the Traffic Division was significantly impacted by the loss of manpower. By year's end, all three traffic officers who had been in position the previous year were replaced as 1 had left to another agency, 1 moved to the Community Relations position and 1 was promoted to Detective. This left the Traffic Division's manpower reduced by an overall 25%.

Field Operations

Racial Profile

The Texas Code of Criminal Procedure (CCP), Article 2.133 requires law enforcement agencies to compile data pertaining to traffic stops made by the agency, along with other information, such as the reason for the stop, race and ethnicity of the driver, if a search was made, and whether contraband was found. CCP Article 2.134 requires a comparative analysis of this information with a goal towards providing equitable law enforcement service to all citizens.

Changes to racial profile reporting in 2018, namely HB 2702 (Sandra Bland Act), require a modified full report from all agencies, rather than the Tier 1 or Tier 2 reporting as in years past which was dependent on whether the agency had adequate video and retention. Changes made to our reporting system to accommodate this new report prevent us from producing the report in the style or form as in years past.

A complete copy of the 2021 Lake Jackson Racial Profiling Report, sent to the State of Texas, can be found in the appendix to this Annual Report.

Lake Jackson Population Generated from 2020 U.S. Census Report

	<u>Total</u>	<u>Percentage</u>
Total Population	28,177	
Male	14,032	49.8%
Female	14,145	50.2%

Field Operations Training

The Patrol division officers attended a total of 4966 hours of TCOLE training in 2021, which is an additional 2359 hours more than the previous year. The Texas Commission on Law Enforcement (TCOLE) requires all law enforcement officers to attend continuing education training. Officers must complete all mandated training each two-year cycle. The last cycle ended August 31, 2021, and the next will end August 31, 2023.

Criminal Investigations

The Lake Jackson Police Department Criminal Investigations Division (CID) is comprised of 12 officers. This division is staffed by a Detective Lieutenant, five Detective Sergeants, two Detectives, one Narcotics Sergeant, one Narcotics Investigator, one Reserve Detective, and as of October 2021, the permanent assignment of a previously temporary Evidence Officer position to a Detective Sergeant/Asst. Evidence Sergeant position.

The Detective Lieutenant is the Division Commander and oversees all the Detectives / Detective Sergeants and their investigations. The Detective Sergeant's primary responsibilities are the investigation of felony-level offenses and other major incidents. The Detectives work primarily misdemeanor-level cases. The Reserve Detective assists other investigators in their case investigations, including prisoner transports, warrant services, and evidence collection. Additionally, The Detective Sergeant (Evidence Sergeant) and Detective Sergeant (Asst. Evidence Sergeant) are responsible for all evidentiary items collected on every Lake Jackson Police Department case.

The Narcotics Sergeant and Investigators work narcotic and vice related cases occurring in our local area. These two investigators further assist our department in various other assignments including the locating of wanted persons, recovery of stolen property, undercover operations, and gathering of information concerning criminal actors in our area. Both positions were previously assigned to the Brazoria County Narcotics Task Force, however in July of 2021 they were re-assigned to the Federal Bureau of Investigation (FBI) Narcotics "Safe Streets" Task Force.

In addition to the normal criminal investigations being conducted by CID, a Detective Sergeant is also responsible for maintaining all Sex Offender Registrations within the city. The Detective Sergeant ensures that each offender is properly registered and reports as required by law. A Detective also assists the Detective Sergeant in ensuring the compliance in all state laws and city ordinances. Random address and registration checks are conducted throughout the year to ensure compliance. CID is also responsible for the review and investigation of all referrals received from Child Protective Services and Adult Protective Services. Our Detectives work hand in hand with other local, state, and federal agencies to ensure the safety of our citizens, especially those who are most vulnerable.

One Detective Sergeant is assigned to an Internet Crimes Against Children (ICAC) Task force, which is a multi-Jurisdictional taskforce comprised of State, Federal and Local area Law Enforcement agencies that focus on the on-line solicitation, possession, and production of child pornography. One Detective Sergeant is the head of the Lake Jackson Police UAS (Drone) team. The UAS team is responsible for assisting all Brazoria County Law Enforcement agencies with areal operations, accident reconstruction, crime scene surveying, missing person searches, fleeing subject searches, high risk building searches, county/city pre and post storm surveying and City facility and road traffic imaging. Lake Jackson CID is also the hub of southern Brazoria County for digital forensic analysis and has one Detective Sergeant assigned as a certified digital forensics expert. This Detective Sergeant assists all local agencies including Freeport PD, Clute PD and the Brazoria County DA's Office, through the usage of Cellebrite digital data extraction software and Graykey mobile device unlocking and extraction hardware (Cellular phone, Tablet and Computer downloading & analysis).

Criminal Investigations

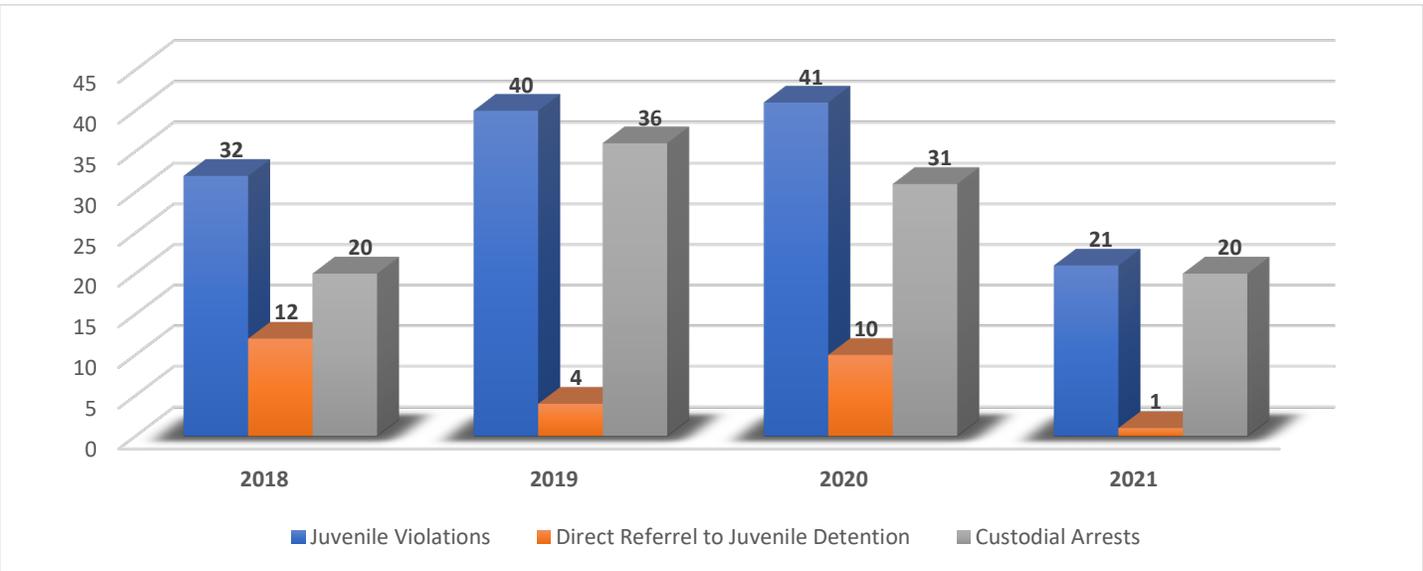

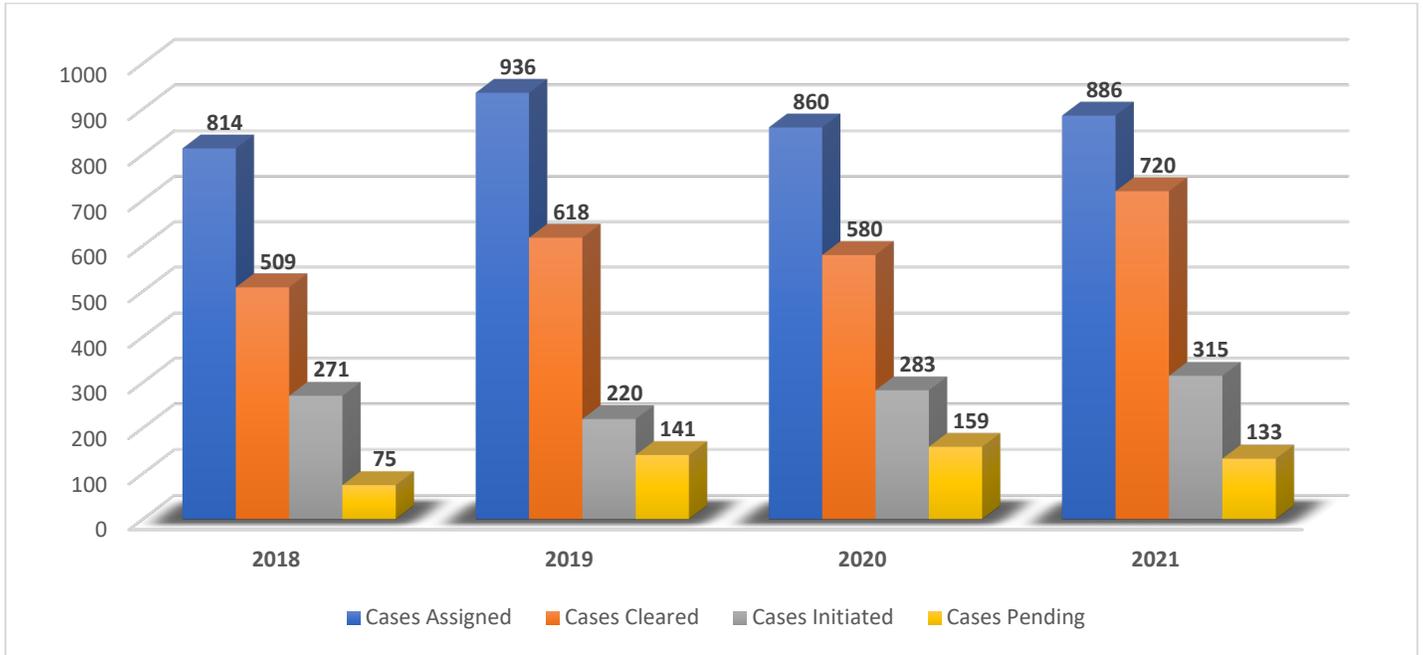

Another responsibility of CID is the maintenance and safe keeping of the department's evidence and property room. The Detective Sergeant (Evidence Sergeant) and Detective Sergeant (Asst. Evidence Sergeant) are tasked with the management of evidence storage, which includes the processing of physical evidence, transport of evidence to and from court and laboratories, ensuring proper packaging of evidence by all Officers, ensuring proper dispositions of the property after trials and complete auditing documentation for every single piece of physical and digital evidence for all LJP cases dating as far back as 1999. There are almost 14,600 items of evidence stored at the Lake Jackson Police Department. Due to the vast amount of evidence stored and maintained, along with the responsibilities of providing and copying digital evidence in preparation for prosecution, in October 2021 an additional Detective Sergeant (Asst. Evidence Sergeant) position was made permanent in CID to assist with evidence management. This staffing addition was crucial to ensure the effective management and timely processing of evidence and the related duties.

In 2021, there were 886 case investigations assigned to CID, which is a slight increase from the 860 cases assigned in 2020. Despite the same challenges we face in 2020 from the COVID-19 pandemic, like keeping employees well and working to most offenders wearing face masks making identification nearly impossible or the Brazoria County Jail restricting the intake of non-violent offenders, this division managed to reach a case clearance rate of 81% in 2021, which is miles above the national criminal case clearance average. Also, in 2021 Detectives obtained over 286 warrants of arrest for suspects involved in criminal activity ranging from theft of property to robbery, and burglary to Murder.

CID continues to work diligently and aggressively investigate all forms of criminal activity and to identify those responsible. This is done by using both traditional investigative methods and new technologically advanced processes. Society's ever-increasing reliance on technology and the ease and availability that technology has afforded the criminal element of anonymity in committing offenses and evasion tactics, which has forced a new breed of investigator that understands and utilizes those new technologies to uncover types of evidence for offenses that did not exist in years past.

Investigators regularly seek out video footage on crime scenes, obtain digital cellular location information on suspect devices, research Internet Protocol (IP) addresses for suspected remote offenders and analyze nearly all suspect, victim, and witness mobile devices with the usage of digital data extraction software and hardware. This means the knowledge base, individual specialized training and standard equipment for every investigator have all increased many times over from what we have seen in the past. This increase in specialized investigative methods and tools has provided new options for gathering evidence of criminal activity but has also added to the time and amount of work an investigator commits to each investigation. The case load investigators in this division maintain, versus the amount of time, dedication and criminal cases solved, clearly demonstrates the level of excellence the investigators of this division hold themselves to.

Narcotics

The Lake Jackson Police Department is focused on deterring narcotics crime in Lake Jackson and Brazoria County. We have one Narcotics Sgt. and one Narcotics Officer assigned to the Federal Bureau of Investigation (FBI) Narcotics “Safe Streets” Task Force. This unit is made up of experienced officers from all participating Local, State and Federal law enforcement. In the first part of 2021, both Narcotic Officers were assigned to the Brazoria County Narcotics Task Force, however as of July 2021, they were re-assigned to the Federal Bureau of Investigation (FBI). In 2021 the Task Force worked a total of 274 cases. Of those cases, 53 cases were in Lake Jackson. Our Narcotics Division work their cases in and around Lake Jackson, Brazoria County and surrounding counties, which in turn leads to better and more thorough investigations criminal network infomrtion. The overall numbers for their activity certainly reflects the excellent work they do to keep drugs out of our city and county. The switch from the Brazoria County Task Force to the FBI in mid-2021, did cause a slight transitional pause in case work, but that activity did accelerate by the end of 2021. This year the task force seized property/narcotics with a street value of \$675,00.00. The task force also seized almost \$120,000 in cash from these drug seizures. The Lake Jackson Patrol Division also works closely with our Narcotics officers on a variety of drugs cases and intel sharing. The Lake Jackson Patrol Division routinely makes arrests on drug charges through routine traffic stops and calls for service. Our officers receive routine training on drug detection techniques. This has enhanced the officer’s abilities to discover and deter narcotics violations. We want to thank the Citizens of Lake Jackson for their continued support of the Lake Jackson Police Department and our partnering Law Enforcement Agencies.

Uniform Crime Reporting

Index Crimes

The UCR Program has expanded in scope, importance, and size since its inception over eight decades ago. The FBI UCR Program began with law enforcement agencies (LEAs) in 400 cities from 43 states submitting crime data in January 1930 and now encompasses more than 18,000 LEAs nationwide that voluntarily contribute their crime statistics. Without the support of these city, county, state, tribal, and federal agencies, the FBI UCR Program could not fulfill its mission to generate a reliable set of crime statistics for use in law enforcement administration, operation, and management. To ensure the best reporting possible, the UCR staff developed, and has further revised, this handbook to assist participating agencies in submitting crime data to the FBI. This document helps agency staff understand and accurately report their agency's crime which is crucial to a wide variety of data users who formulate policies, make strategic and operational decisions, and conduct criminological research and analysis.

The Texas Program

On January 1, 1976, the State of Texas adopted the Uniform Crime Report as its official statewide crime report. The Department of Public Safety accepted the responsibility to collect, validate and tabulate UCR reports from all reporting jurisdictions in Texas. To handle this task, the Uniform Crime Reporting Section was established within the Identification and Criminal Records Division (now Crime Records Service) to coordinate the collection, processing, and publication of information regarding the extent of major crime in Texas.

- Eight Index Crimes Include:
- Criminal Homicide
- Forcible Rape
- Robbery
- Aggravated Assault
- Burglary
- Larceny – Theft
- Motor Vehicle Theft
- Arson

Uniform Crime Reporting

Index Crimes

The UCR Program collects statistics on the number of offenses known to law enforcement. In the traditional Summary Reporting System (SRS), there are eight crimes, or Part I offenses, (murder and nonnegligent homicide, forcible rape, robbery, aggravated assault, burglary, motor vehicle theft, larceny-theft, and arson) to be reported to the UCR Program. These offenses were chosen because they are serious crimes, they occur with regularity in all areas of the country, and they are likely to be reported to police.

The Part I offenses are defined as:

Criminal Homicide - a.) Murder and nonnegligent manslaughter: the willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, and accidental deaths are excluded. The program classifies justifiable homicides separately and limits the definition to: (1) the killing of a felon by a law enforcement officer in the line of duty; or (2) the killing of a felon, during the commission of a felony, by a private citizen. b.) Manslaughter by negligence: the killing of another person through gross negligence. Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included in the category Manslaughter by Negligence.

Forcible Rape - The carnal knowledge of a female forcibly and against her will. Rapes by force and attempts or assaults to rape, regardless of the age of the victim, are included. Statutory offenses (no force used victim underage of consent) are excluded.

Note: In December 2011, the UCR Program changed its SRS definition of rape: "Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim." The effect of this definition change will not be seen in reported crime data until after January 2013. Data reported from prior years will not be revised.

Robbery - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Aggravated Assault - An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

Burglary (breaking or entering) - The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

Larceny-Theft (except motor vehicle theft) - The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, motor vehicle parts and accessories, shoplifting, pocket picking, or the stealing of any property or article that is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, confidence games, forgery, check fraud, etc., are excluded.

Motor Vehicle Theft - The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on land surface and not on rails. Motorboats, construction equipment, airplanes, and farming equipment are specifically excluded from this category.

Arson - Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Arson statistics are not included in this table-building tool.

NIBRS

UCR to NIBRS Conversion

The FBI has mandated that all law enforcement agencies transition from UCR Summary reporting to NIBRS by 2021. Beginning January 2021, the Lake Jackson Police Department converted to the National Incident Based Reporting System (NIBRS). The major differences from the UCR Summary and NIBRS report are:

- 1. NIBRS has 3 offense categories: Crimes against persons; Crimes against property; and Crimes against society.*
- 2. NIBRS expands Part I offenses from 8 to 24 categories. There are more data elements collected for the Part I offenses for better crime analysis.*
- 3. NIBRS captures specific details about crimes and offenders through incident-based report. These details include information such as the date, time, location, and the circumstance of the criminal incident; the characteristics of the victim and offender (such as the age, sex, race, age, and ethnicity); victim/ offender relationship; the involvement of weapon and drugs; property loss; whether the crime was motivated by bias; or if a computer was used to perpetuate the crime. Additionally, the NIBRS provides more robust information on officer assaults. Data collection systems enhancements include collection of cargo theft data, human trafficking offenses, and information about animal cruelty.*

The NIBRS enriches the quantity, quality, and timeliness of crime data collection by law enforcement and improves the methodology used in compiling, analyzing, auditing, and publishing these crimes statistics.

This report reflects incidents submitted to the Texas Department of Public Safety's Uniform Crime Reporting (UCR) system as applied to your request. UCR is a voluntary program, wherein, participating agencies are required to submit their data annually but have no data frequency submission requirement. As data is submitted, routine data validations are applied to ensure completeness; however, the responsive data contained within this report may have been retrieved from the system prior to being subject to or completing those validation routines, and as such, may contain inaccuracies, be incomplete or not reflect every incident that may have occurred within the specified jurisdiction for the requested timeframe. As such, this report is a reflection of all of the data contained within the TXDPS UCR System at the time of inquiry for the timeframe specified. Every effort has been made to produce the data in the requested format.

Support Services

Support Services

There are Forty-three (43) employees within the Support Services section of the department. They assist the Patrol Division and Criminal Investigations Division (CID) with their daily operations. The Support Services team consists of the Administrative Lieutenant, the Community Relations/Training Officer, two (2) full-time Communications Leaders, ten (10) full-time Communications Specialists, two (2) part-time Communications Specialists, three (3) Record Secretaries, one Administrative Secretary, seventeen (17) crossing guards, five (5) alternate crossing guards, and one Custodian. Two (2) Systems Analysts, who are a part of the city's Information Technologies Department; a division of Finance, who are permanently assigned and stationed within the police department for continuous direct support.

In 2021 the Administrative Sergeant was reassigned as the Administrative Lieutenant and took command for the entirety of the support services team (Communications, Community Policing, Training, Crossing Guards and Custodian), freeing the former Administrative Lieutenant to be reassigned as the Assistant Chief of Emergency Operations, assuming the responsibilities for the city as its Deputy Emergency Management Coordinator.

In 2021 Tom Hardesty took over as Lead System Analyst for the Lake Jackson Police Department. Taylor Combs filled the open position of System Analyst. Information Technology (IT) completed the removal of all 3G cellular Mobile Data Terminal (MDT) for both LJFD and LJEMS. In addition, IT assisted with implementing two 12 kVA Uninterruptible Power Supplies (UPS) systems supporting PD IT and dispatch operations. The UPS project's source addressed the requirement to remove the remaining LJPD Dispatch services tied to the Houston-Galveston Area Council (HGAC) 911 Battery Backup systems. The upgrade of the PD Firewalls, the installation of the Email archiving appliance, and the completion of the Endpoint Detection and Response (EDR) technology rollout assisted the LJPD IT department's ability to increase the LJPD's technology security posture. 2021 saw the start of evaluations for the PD LiveScan fingerprint system and the aging Records Management System (RMS)/Computer-Aided Dispatch (CAD) systems. The LiveScan system's corporation went out of business in late 2020 due to COVID-19 related causes, leaving the LJPD without a supported fingerprint system, which is in the process of being corrected with a new system. The existing Central Square ONESolution RMS and CAD software are over 20 years old and no longer being actively developed.

The Lake Jackson Police Department's Communications Specialist ("telecommunicator" or "dispatcher") personnel play a significant role in public safety. They are the citizen's first line of communication when they need any form of assistance. Each new telecommunicator must attend a mandatory 108-hour, 3-week telecommunicator course, pass a state exam, pass a physical/drug screen and psychological evaluation to obtain the license. In addition to obtaining the license, the state requires each telecommunicator to take at least 20 continuing education hours within each training cycle to maintain the license. Telecommunicators are further mandated to take four (4) classes; Cultural Diversity, Ethics, Crisis Communication and Spanish for Law Enforcement in addition to the 20 continuing education hours.

The Community Policing Officer oversees department training, community relations, Citizens Police Academy, Youth Citizens Police Academy, Explorer Post and Crossing Guards. The Community Policing Officer has organized many city events and community outreach programs including educational visits at daycares in the city limits. Due to the COVID pandemic during the 2020 year, the Community Policing Officer in 2021 is now starting to work on making things return to how they were prior to the pandemic.

Support Services

The duties of a Communications Specialists are extensive and vary from answering general administrative telephone calls to emergency 911 telephone calls. The Lake Jackson Police Department Communications Specialists dispatch for the Lake Jackson Police Department, Lake Jackson Fire Department, Lake Jackson Emergency Medical Services (EMS), the Lake Jackson Animal Control Department, Lake Jackson Fire Marshall's Office, Richwood Police Department and Richwood Fire Department.

In 2021 Lake Jackson telecommunicators manually entered 3,042 warrants issued by the Lake Jackson Municipal Court and Brazoria County judges into state a local database. Lake Jackson telecommunicators also manually entered 1,992 handwritten citations and warnings into our city database.

With the addition of two new telecommunication positions and with the division being fully staffed in 2021, the department strives to always have 3 to 4 telecommunicators on duty. Telecommunicators use a Computer Aided Dispatch (CAD) system to enter calls, and in many cases, silently dispatch them to the officers in the field. The telecommunicators also utilize a 700 MHz radio system primarily, and a 400 MHz radio system as a backup.

The majority of requests for police services come through the telephone system. The telecommunicator takes the information and enters it into the CAD system and then dispatches it to the appropriate first responders. Each documentation record in the CAD system is recorded as an "event," and in 2021 there were a total of 67,953 events entered. Those events encompass all calls for the Lake Jackson Police Department, Lake Jackson Fire Department, Lake Jackson EMS, Lake Jackson Animal Control, Richwood Police Department and Richwood Fire Department.

The Lake Jackson Police Department saw an increase of 2,499 events, the Lake Jackson Fire Department saw an increase of 101 events and the Lake Jackson EMS Department saw an increase of 290 events from the previous year. The Richwood Police Department saw an increase of 6,427 events and the Richwood Fire Department saw an increase of 26 events from the previous year.

The 14,306 total events in 2021 for the City of Richwood reflect about 21.05% of the overall workload for Lake Jackson Dispatch, a service that has been provided to Richwood since 2012.

Support Services

Below charts indicates the total calls for service for each City and Department since 2017.

Lake Jackson	2017	2018	2019	2020	2021
Police	60,590	63,027	56,505	45,558	48,057
Fire	745	586	598	520	621
EMS	4,495	4,801	5,022	4,679	4,969
Richwood	2017	2018	2019	2020	2021
Police	8,504	14,202	8,706	7,730	14,157
Fire	124	88	112	123	149

Police calls are assigned based upon a “priority,” with “Priority P” being the highest level, which indicates an immediate danger to life or a major crime in progress. The next level of significance is “Priority 1,” followed by “Priority 2,” “Priority 3,” and on to the lowest “Priority 9.” As the priority number lowers, so does the threat level, thereby lowering the response urgency. Below is a chart indicating the events assigned, by priority, for the Lake Jackson Police Department for 2021.

A notable difference in the Priority 1 call totals, in relation to previous years, is shown in the chart below. Following an assessment regarding police response to certain calls where there was a threat to property only, it was determined that the priority response code should be reduced for officer and citizen safety.

Below chart indicates the priority calls since 2017

Lake Jackson	2017	2018	2019	2020	2021
Priority P	740	684	704	486	635
Priority 1	965	622	626	504	552
Priority 2	13,065	12,893	12,767	11,105	11,464
Priority 3	45,594	48,594	42,173	32,547	35,014
Priority 4-9	226	234	235	224	232

Most of life threatening and critical calls reported to the Lake Jackson Police Department are through the 911 system. Our Telecommunication Specialists received 14,945 such calls in 2021. The police department has continued to receive a consistently large volume of 911 calls. The Lake Jackson Police Department Communications Division received 69,852 non 911 calls in 2021, which brings the total answered calls by our telecommunicators to 84,797.

Permits

Alarm:

We registered 724 alarm sites to include 514 residential sites, 210 non-residential sites and 8 city buildings. All alarm permit renewals are due on January 1st each year and are \$50.00. New alarm permits that are received throughout the year are pro-rated.

Solicitor:

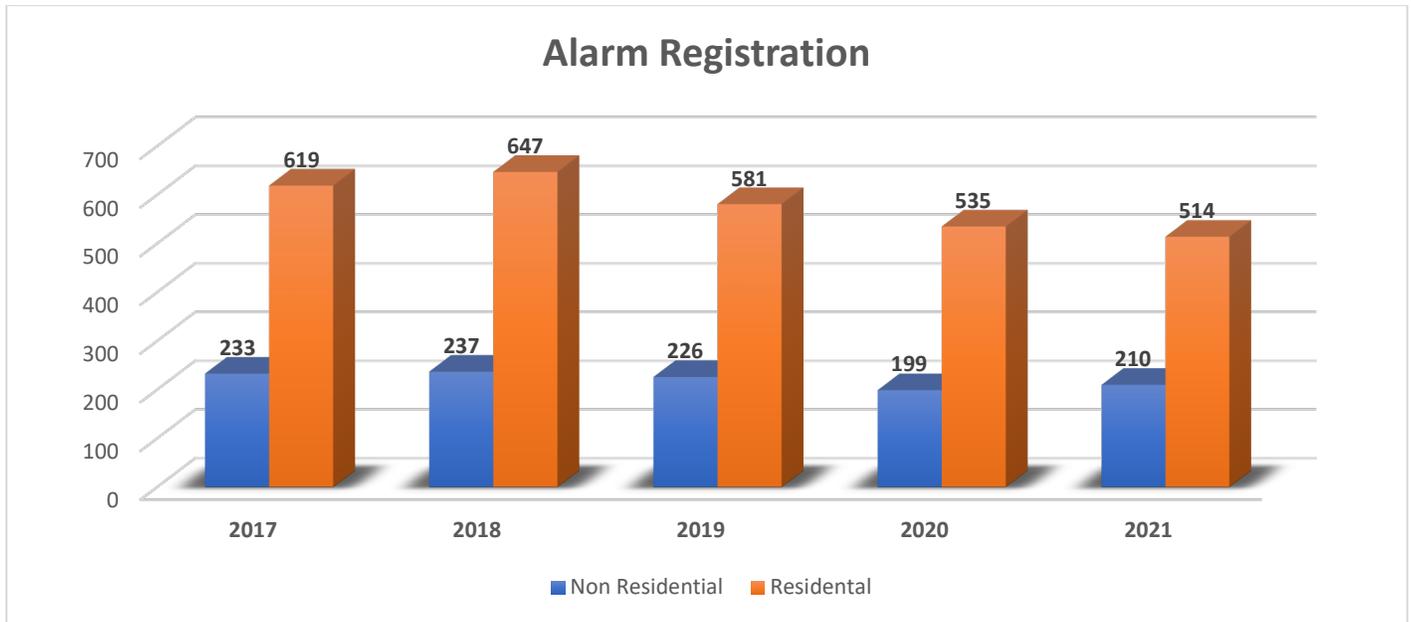

We registered 5 different companies with a total of 19 individual solicitors. Each solicitor presents a photo ID along and a background check is completed on each individual.

Wrecker:

In 2021 we registered 4 wrecker companies with a total of 23 wreckers. Each wrecker service completes required paperwork, and the wreckers are inspected by a member of the Police Department and a permit is then issued to each wrecker.

Support Services

The Police Department responded to 732 false burglary and panic/holdup alarms in 2021. We also responded to 158 false fire alarms for a total of 890 false alarms. This year we received zero true alarms where entry or attempted entry was revealed and 1 true fire alarm. We registered 724 total alarm sites to include 514 residential sites, 210 non-residential sites and 8 city buildings. A total of \$51,298.76 was collected for alarm permits/registration and false alarm fees.

Community Policing

In 2021, the Community Policing position was filled by Officer Nick Ross, who took the position over after long time Officer John Hogan left to move to another part of the state. Everyone within the Lake Jackson Police Department contributes to our community policing efforts. Whether it's one of our Patrol Officers working a shift and interacting with the citizens of Lake Jackson or the Community Relations Officer is hosting a specific community relations event. Our Community Relations Officer, usually accompanied by the Lake Jackson Police Department Traffic Division, have done youth education events at many daycares, primary, intermediate, and secondary schools throughout the City of Lake Jackson this year.

The Community Policing division offered a variety of programs for the citizens of Lake Jackson. Area businesses often request and schedule presentations for their employees, and tours of the police department. Most large community events were canceled due to COVID-19, but we were still able to attend many smaller events throughout the year.

The Lake Jackson Explorer Post canceled all meetings in 2021 due to COVID-19. There are plans in the works to rebuild the Lake Jackson Police Department Explorer Program in the near future.

Due to COVID-19 National Night Out was canceled in 2021. In 2022 we are going back to what National Night Out was originally created to do. National Night Out is an annual community-building campaign that promotes police-community partnerships and neighborhood camaraderie to make our neighborhoods safer, more caring places to live. Millions of neighbors take part in National Night Out across thousands of communities from all fifty states. Texas celebrates National Night Out on the first Tuesday in October. Neighborhoods are encouraged to host parties and request visits from emergency personnel. It provides a great opportunity to bring police and neighbors together under positive circumstances.

The Blue Santa program continued to help families in need during the 2021 Christmas Season. The Lake Jackson Police Department Citizens Police Academy Alumni Association and other Lake Jackson city employees helped shop for each child selected by the program. Over 26 families and 65 children from Lake Jackson were selected by the Blue Santa Program. Each family was provided with a traditional Christmas turkey meal and all the sides that go along with it. Each child selected by the program was provided gifts to help spread Christmas Joy and Happiness. This program would not exist without the overwhelming support of the Lake Jackson citizens, businesses, governing officials, and volunteers.

The Police Department Facebook page remains popular. In addition to posting information about events being held, outreach the Police Department needs and Press Releases, daycare and school visits, the page also has been utilized in seeking the public's help in identifying suspects and solving cases.

OPERATIONS
CENTER**

Emergency Management

The year began with Covid-19 being at the forefront, due to the 2020 holiday season case surge overflow into the new year. 2021 saw cases go up and down with Covid-19 new strains, and ever-changing Centers for Disease Control and Prevention (CDC) guidelines and mask mandates. Finally, the year ended as it began, with a surge of Covid-19 cases which started just before Christmas. The Brazoria County Health Department reported that the final case count for the City of Lake Jackson (including the Fire/EMS ETJ) was 3,951 cases.

Mid-February 2021, the entire State of Texas experienced an extreme cold winter freeze event, called "Winter Storm Uri." Due to the extreme frigid temperatures, Mayor Roznovsky signed a Disaster Declaration for the city. Electric Reliability Council of Texas (ERCOT) started rolling blackouts to handle the increased demands placed on the grid. As a direct result, several cities in Brazoria County and the region were adversely affected. The City of Lake Jackson partnered with the City of Freeport and the Salvation Army by providing the Recreation Center facility to be used as a temporary shelter, since the City of Freeport lost power to their shelter site. The shelter was open for a few days and helped many families. However, the City of Lake Jackson also lost power, but the site was still able to be used. The Deputy EMC worked with Public Works to provide bottled water to residents who had busted water lines or who were without water. During the incident, the police department dispatch lost phone services (land lines, cell phones, and 911) for a short period of time.

The Deputy EMC worked with the Public Works Department to bring specialized training for the public works personnel. He brought an outside instructor who provide both classroom instruction and field training on the use and placement of mobile water pumps. The Deputy EMC also helped facilitate training for public works personnel in the safe operation and use of chainsaws. That training was not a moment too soon, for in September, the city experienced Hurricane Nicholas, which caused millions of dollars in damage. The city collected about 75,000 cubic yards of vegetative debris. The Deputy EMC continues to work with the Engineering Department, Public Works, and City Administration, on the disposal of the Hurricane Nicholas debris.

Hurricane Nicholas made landfall in the early hours on Tuesday, September 14th. The storm caused a widespread power outage, damages to homes and businesses, downed trees, power lines, and traffic lights. In the storm's aftermath, the city crews worked tirelessly trying to clear the roadways for traffic use. The City of Lake Jackson worked with CenterPoint Energy in setting up a large generator to power the Civic Center as a cooling station and a device powering site for area residents. Food was donated by HEB, the Houston Food Bank, the Salvation Army, and CenterPoint, which was given to those who came to the civic center. The City of Lake Jackson partnered with HEB in setting up an ICE POD (Point of Distribution) in the Recreation Center parking lot. Ice was handed out until the supplied were depleted.

On October 1, 2021, the Deputy EMC's position was reclassified within the police department from Administrative Lieutenant to Assistant Chief of Police – Emergency Operations. The department's organizational chart was restructured to reflect the change. The police department now has two Assistant Chief of Police positions; one is over police operations and the other is over emergency operations.

The Deputy EMC is a certified instructor for the Federal Emergency Management Agency (FEMA), National Incident Management System (NIMS), Incident Command System (ICS) courses, through the Texas Division of Emergency Management (TDEM). He co-instructed several classes, in three different counties, which include cadre from the Texas Division of Emergency Management (TDEM), the City of Alvin, and from the Homeland Preparedness Project.

It was another busy year for the Office of Emergency Management.

Animal Control Division

Animal Control Division

In 2021, the Animal Control Division responded to 2949 animal related calls. The calls consisted of domestic animal pickups, lost animals, animal cruelty, barking complaints, dangerous animals, animal bites, possible rabies exposures, assisting with nuisance wildlife, injured wildlife, livestock within city limits and other animal related issues. They made 59 transports to the Rabies Laboratory in Houston and submitted 104 bats for testing which resulted in 2 positive results. The Animal Control Division had to use their dart rifle 4 times to tranquilize aggressive or scared dogs that were running loose in order to capture them.

In 2021, the Animal Control Division showed a slight increase in calls related to stray domestic animals compared to 2020 which could be related to life slowly returning to normal after the COVID-19 pandemic. The number of actual animal intakes in 2021 is showing the total number of animals (excluding wildlife) picked up and transported to the shelter by the Animal Control Division and the Patrol Officers which reflects the same decrease. The number of nuisance wildlife throughout the city stayed the same due to the ongoing construction throughout the city which causes wildlife to relocate into residential areas. The Animal Control Division strives to continuously educate the public by distributing information packets and providing advice in wildlife related issues. The wildlife information packets are also available on the city website along with other animal related information to help residents with problems that may exist.

The amount of animal bites in the community showed a significant decrease compared to the previous year. In 2020, the Animal Control Division received 54 reported animal bites and in 2021, 42 were reported. This decrease can also be related to life returning to normal after the Covid-19 pandemic due to more pet owners going back to work. The bites reported from the shelter decreased slightly with 10 reported bites compared to 12 in 2020. This is related to new operation procedures they implemented after the Covid-19 pandemic. The Animal Control Division received 31 miscellaneous reports in 2021 which consisted of 13 Nuisance Animals - Animals Attacks, 6 Cruelty to Animals, 6 Animal - Unrestrained, 1 Abandonment of Animal, 1 Customary Home Occupations, 1 Sanitation of Quarters/Animals, 1 Striking Animal with Car, 1 Use of Poisons/Animal and 1 Other Incident.

All quarantine checks conducted by the Animal Control Division have been included into the chart which consisted of quarantine checks during quarantine periods at the shelter, at owner's homes and local veterinarians.

Traps set by the Animal Control Division in 2021 for nuisance wildlife stayed close to the number of the previous year which could be related to the ongoing construction throughout the city and an unusual cold time period at the beginning of the year that resulted in animals looking for warm places in attics, garages or sheds.

Several programs and events were still canceled in 2021 due to the Covid-19 pandemic but the Animal Control Division participated in the Blue Santa Program.

The Animal Control Division worked together with other agencies such as Clute Animal Control Division, Freeport Animal Control Division, and the City of Richwood.

Police Officer
TRAINING

Training

In 2021, Lake Jackson Police Department personnel received 6171 total hours of reportable TCOLE (Texas Commission on Law Enforcement) training. All officers hired by the Lake Jackson Police Department go through either a 6-week (306 hour) or 11-week (565 hour) field training program. Experienced officers usually complete the 6-week program. TCOLE allows a maximum of 160 reportable hours for Field Training, of which sworn personnel are eligible to receive once in their career. Any hours above 160 field training hours are applied to non-reportable training hours.

In 2018, the Lake Jackson Police Department created a Police Cadet program, which was approved by city council. The program allows a person to attend the police academy as a full-time police department employee. Thus, the program allows someone who is established to transition from one career path to another without a financial burden. The department realized that there are great candidates in the job market who would enjoy a career in law enforcement but could not afford to quite their current job, then pay for and attend an academy without an income. This program made that issue a moot point. The police department sponsored Cadet Gaona through the Brazosport College Police Academy in 2021. Cadet Gaona graduated in December of 2021, was sworn in as a Lake Jackson Police Officer, and immediately went into our rigorous Field Training Program.

In 2021 the Lake Jackson Police Department continued to provide access to on-line training for both officers and dispatchers. We did make a few changes to our online training provider. We switched from PoliceOne over to a Texas based training facility called OSS Academy. Not only is OSS Online Academy a Texas company providing training to Texas Peace Officers, but they are also only one hour north of Lake Jackson which makes communication easy with this training provider. Texas based online training providers focus solely on TCOLE approved training which our officer's need. The Lake Jackson Police Department went live with OSS Academy in mid-October and our personnel have already compiled 530 training hours through December 31st, 2021.

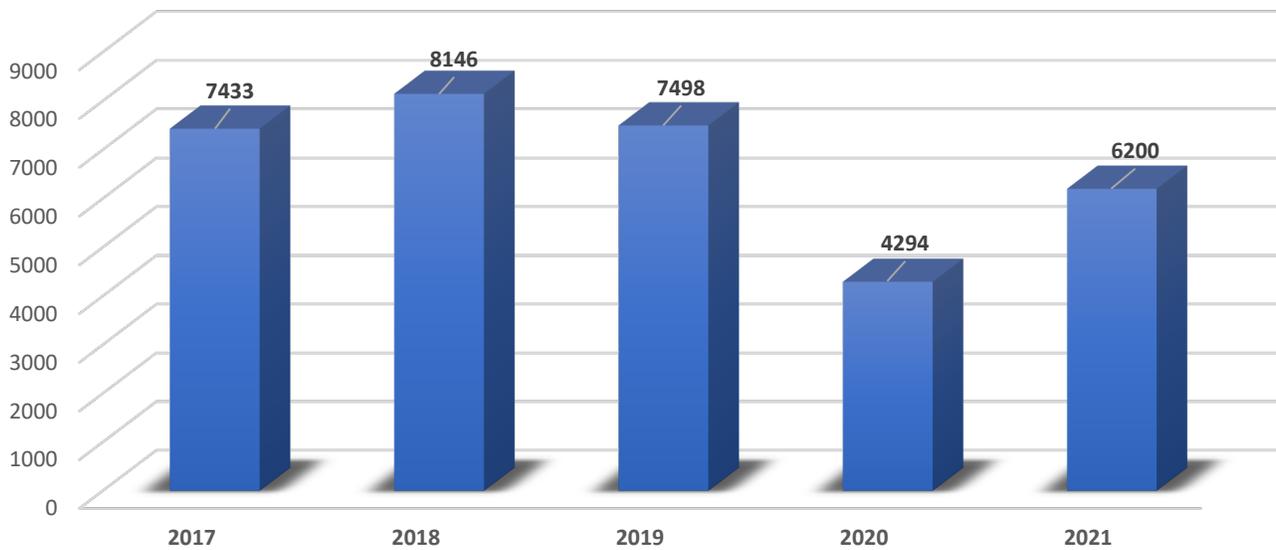

- Police Department Command Staff received 326 hours of reportable training.
- Investigations division received 479 hours of reportable training.
- Patrol division received 4276 hours of reportable training and 478 non-reportable training hours.
- Reserve Officers received 212 hours of reportable training.
- Communications personnel received 907 hours of reportable training.

The total number of TCOLE training hours in 2021 was 6200 hours

Training

The Texas Commission on Law Enforcement (TCOLE) requires all law enforcement officers to attend continuing training. Officers must complete all mandated training each two-year cycle. The last cycle ended August 31, 2021, and the next will end on August 31, 2023.

TOTAL YEARLY TRAINING HOURS

Training

All Texas Police Officers and Telecommunicators are licensed and certified based on law enforcement training, education, and experience. New in 2014 was the addition of the Master's Certification for Telecommunicators. New for 2021 the Telecommunicator basic licensing academy is now 104 hours in length.

Types of licenses for Officers and Telecommunicators

- Basic
- Intermediate
- Advanced
- Masters

Below is the number of the Lake Jackson Police Department personnel that advanced their licensing in 2021

- 3 Officer and 2 Telecommunicators were awarded Basic Certifications
- 1 Telecommunicator was awarded Intermediate Certification
- 3 Officers were awarded Advanced Certifications
- 4 Officers were awarded Master Certifications

Training

In March of 2021 the new Training Coordinator for the Lake Jackson Police Department was tasked with helping the agency become a contract training provider through the Texas Commission on Law Enforcement. This is a tedious 7 step application process through the Texas Commission on Law Enforcement. This required the formation of a training division advisory board, a training needs assessment for the agency, training division policy manual, several specialized courses and certificates had to be acquired and many other monumental tasks just to submit the application to the state. We are happy to announce the Lake Jackson Police Department has moved onto the 5th step in the process to becoming a TCOLE contract training provider. This is one step closer to our goal in becoming a premier law enforcement training facility for all of Brazoria County and the surrounding areas.

Classes Held and Instructed by the Lake Jackson Police Department	Course Hours	# Of Courses Held

LAKE JACKSON, TX 77566-5207

This Agency filed a full report

LAKE JACKSON POLICE DEPT. has adopted a detailed written policy on racial profiling. Our policy:

- 1) clearly defines acts constituting racial profiling;
- 2) strictly prohibits peace officers employed by the LAKE JACKSON POLICE DEPT. from engaging in racial profiling;
- 3) implements a process by which an individual may file a complaint with the LAKE JACKSON POLICE DEPT. if the individual believes that a peace officer employed by the LAKE JACKSON POLICE DEPT. has engaged in racial profiling with respect to the individual;
- 4) provides public education relating to the agency's complaint process;
- 5) requires appropriate corrective action to be taken against a peace officer employed by the LAKE JACKSON POLICE DEPT. who, after an investigation, is shown to have engaged in racial profiling in violation of the LAKE JACKSON POLICE DEPT. policy;
- 6) requires collection of information relating to motor vehicle stops in which a warning or citation is issued and to arrests made as a result of those stops, including information relating to:
 - (a) the race or ethnicity of the individual detained;
 - (b) whether a search was conducted and, if so, whether the individual detained consented to the search;
 - (c) whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual;
 - (d) whether the peace officer used physical force that resulted in bodily injury during the stop;
 - (e) the location of the stop;
 - (f) the reason for the stop.
- 7) requires the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit an annual report of the information collected under Subdivision (6) to:
- 8) the Commission on Law Enforcement; and
- 9) the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.

The LAKE JACKSON POLICE DEPT. has satisfied the statutory data audit requirements as prescribed in Article 2.133(c), Code of Criminal Procedure during the reporting period.
